

ECE 2524 - Project 3

Zike Yu

1. The url of my github account:

https://github.com/zekeyu/2524_P3_zekeyu.git

2. Project idea:

I am studying machine learning myself right now, and I want to write a program that can automatically recognize CAPTCHA. But firstly, I need to collect as many CAPTCHA pictures as possible to obtain a sufficient number of training data for machine learning. So, I would like to design a python project to automatically generate CAPTCHA pictures.
